SUMMARY

Product Owner / Business Analyst with 3+ years of experience in Product Ownership, Business Analysis, and Software Engineering. Currently working with Caterpillar Inc. – CAT Digital on VisionLink, a Fleet Management and Equipment Telematics platform. Experienced in requirement elicitation and analysis, product backlog management, Agile/Scrum, user stories, acceptance criteria, API requirements, UAT, and end-to-end feature delivery. Strong technical foundation in ReactJS, JavaScript, Core Java, HTML, CSS, AWS, Swagger, and GitHub, enabling effective collaboration between business and engineering teams. Experienced in leveraging MCP, Agentic AI, and prompt engineering to improve product documentation and delivery productivity.

PROFESSIONAL EXPERIENCE

AI Infotech Private Limited, Product Owner | Business Analyst 07/2025 – Present | Chennai
Client: Caterpillar Inc. – CAT Digital | Project: VisionLink – Fleet Management & Equipment Telematics Platform

- Manage the end-to-end product lifecycle for VisionLink, collaborating with Caterpillar stakeholders, Engineering, UX/UI, and QA teams to drive Agile delivery.
- Lead requirement elicitation, analysis, and prioritization, translating business needs and Figma workflows into PRDs, user stories, end-to-end scenarios, and acceptance criteria.
- Manage and prioritize the product backlog using Scrum; participate in Sprint Planning, Backlog Refinement, Sprint Reviews, and Retrospectives.
- Define API requirements, data flows, service interactions, and microservice dependencies for telematics features; coordinate UAT, defect triage, regression testing, and release validation.
- Led a critical 1-month delivery cycle, coordinating cross-functional teams to deliver 8 features within an aggressive timeline; built MCP-based Agentic AI tools to streamline acceptance criteria and workflow documentation, improving Product Owner productivity.

Precise Pick Private Limited, Front-end Developer & Product Owner 11/2022 – 02/2025 | Chennai
Project: Annex Go Getters Web Application

- Gathered and analyzed business and product requirements and authored PRDs, functional specifications, user stories, and acceptance criteria for 15+ feature releases.
- Designed and developed responsive web applications using ReactJS, HTML, CSS, and JavaScript, contributing to a 30% improvement in client engagement.
- Built a React-based CMS enabling real-time content updates and dynamic page management, improving operational efficiency by 35%.
- Collaborated with Product, Design, Development, and QA teams throughout the SDLC to ensure successful feature delivery and product stability.
- Managed source code and release workflows using GitHub and supported CI/CD pipelines using AWS.

EDUCATION

Master of Computer Applications (MCA), Crescent Institute of Technology 09/2020 – 08/2022 | Chennai
Bachelor of Science (B.Sc), SRM Arts and Science College 06/2017 – 05/2020 | Chennai
